

# Cataract Surgery Package Fee Agreement

We now offer 4 cataract packages that emphasize refractive outcomes, customized to our patients' individual needs and visual expectations.

## Premium Presbyopia Package

This package includes additional clinical testing, surgical technologies, and surgical planning accompanied by a lens upgrade with either a multi-focal lens or Crystalens for presbyopia correction. Astigmatism correction will be performed, as needed. Laser vision enhancement is also included, as needed; to ensure the best possible visual outcomes. An additional 3 months of post-operative follow up will also be included.

***Patient's best opportunity to see "glasses free" at distance and near.***

## Custom Toric Package

This package includes additional clinical testing, surgical technologies, and surgical planning accompanied by a toric lens upgrade ~ astigmatism correction to provide the best possible visual outcome. Laser vision enhancement is also included, as needed.

***Patient's best opportunity to see "glasses free" at distance. Glasses still required for near vision.***

## Standard Package - PLUS

This package includes additional clinical testing and surgical planning for improving outcomes; with an upgraded, high definition, single focus lens implant and incisional astigmatism correction OR laser refinement of refractive result, as needed.

***Patient's best opportunity to see "glasses free" at distance. Glasses still required for near vision.***

## Standard Package *(No Additional Charge)*

This package includes standard cataract surgery with a single focus lens implant that is covered by Medicare and standard insurance carriers. This lens allows reasonably good distance vision.

***Most patients will still require glasses for both distance and near vision.***

- Important to note: Your surgeon will determine which package you may qualify for, to best suite your visual needs.
- You may not qualify for all of the above packages.
- Eye diseases including but not limited to Corneal Disease, Retinal Disease or Dry Eye may prevent patients from achieving 20/20 visual outcomes.
- Please note that the above selected fees are due the day of surgery!
- NO PERSONAL CHECKS ARE ACCEPTED, but you may use cash, credit card, CareCredit financing or bankers check.
- These fees are in addition to charges which will be submitted to your Medical Insurance Provider.
- Co-pays, co-insurance and deductible amounts will be billed to you once we receive payment and direction from your Medical Insurance Provider.
- Questions regarding your insurance coverage need to be directed to your Medical Insurance Provider.
