

## **Novus Clinic COVID Policy**

### **Patients visiting the Novus Clinic Office:**

Novus Clinic has a “mask optional” policy. Novus Clinic providers, employees, patients, family members, visitors, and vendors can choose to wear a mask in the Novus clinic office. Masks are welcomed and encouraged for those who choose to wear them, and they will be available onsite upon request. We ask that everyone exercise kindness, compassion, and patience toward others in support of their personal choice to wear a mask. COVID levels and trends are closely being monitored, and policies may be adjusted as needed.

### **Novus Ambulatory Surgery Center:**

Due to CDC and accreditation requirements, ALL patients, family members, visitors, staff, and vendors are required to wear a mask while in the Novus Ambulatory Surgery Center facility. We will also have masks available onsite for those who need them.
